All you need

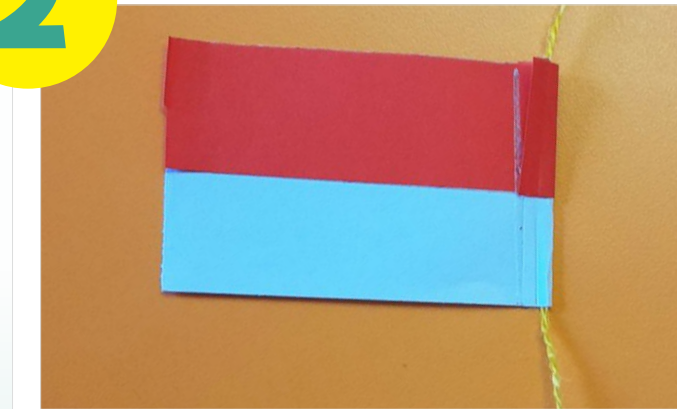

Making a flag

Cut the white paper to be about 7 cm tall and 4 cm wide. And red paper with a length of 7 cm and a width of 2 cm.

Attach the flags we've made to the string using double-sided tape.

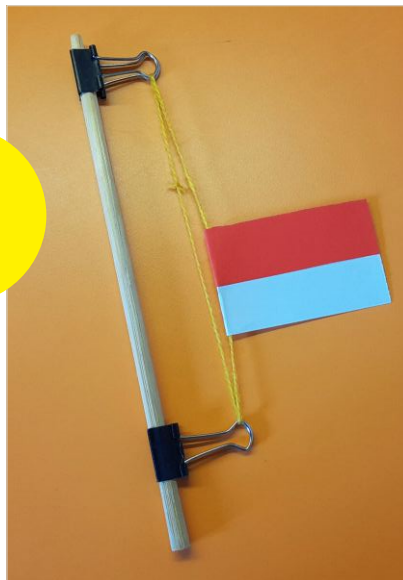

Let's put them together!

1

Use a small paper clip as a holder for the string.

2

Tie the string with the flags onto the flagpole. Don't forget to tie it tightly!

3

Use a large paper clip as the base of the flagpole, and now you can raise and lower the flag!
