

1 FACTS ABOUT KAABA

TRUE OR FALSE

DID YOU KNOW?

Kaaba is the most beloved and sacred place for Muslims as it is being told as the HOUSE OF ALLAH. Million Muslims every year from different parts of the world visit Masjid Al Haram to pray and worship the one and only true God, Allah.

Kaaba is located in Mecca, Saudi Arabia.

Mecca is regarded as the birthplace of Prophet Muhammad and features at the top of the list of most visited places on earth.

LET'S LEARN ABOUT SOME FACT ABOUT IT!

The Kaaba shape is circle and very small

FALSE

Kaaba is a cube building made of granite which has 4 corners and a height of about 13.1 meters with a width of 10-12 meters.

The Kaaba is covered with a black cloth embroidered with gold

TRUE

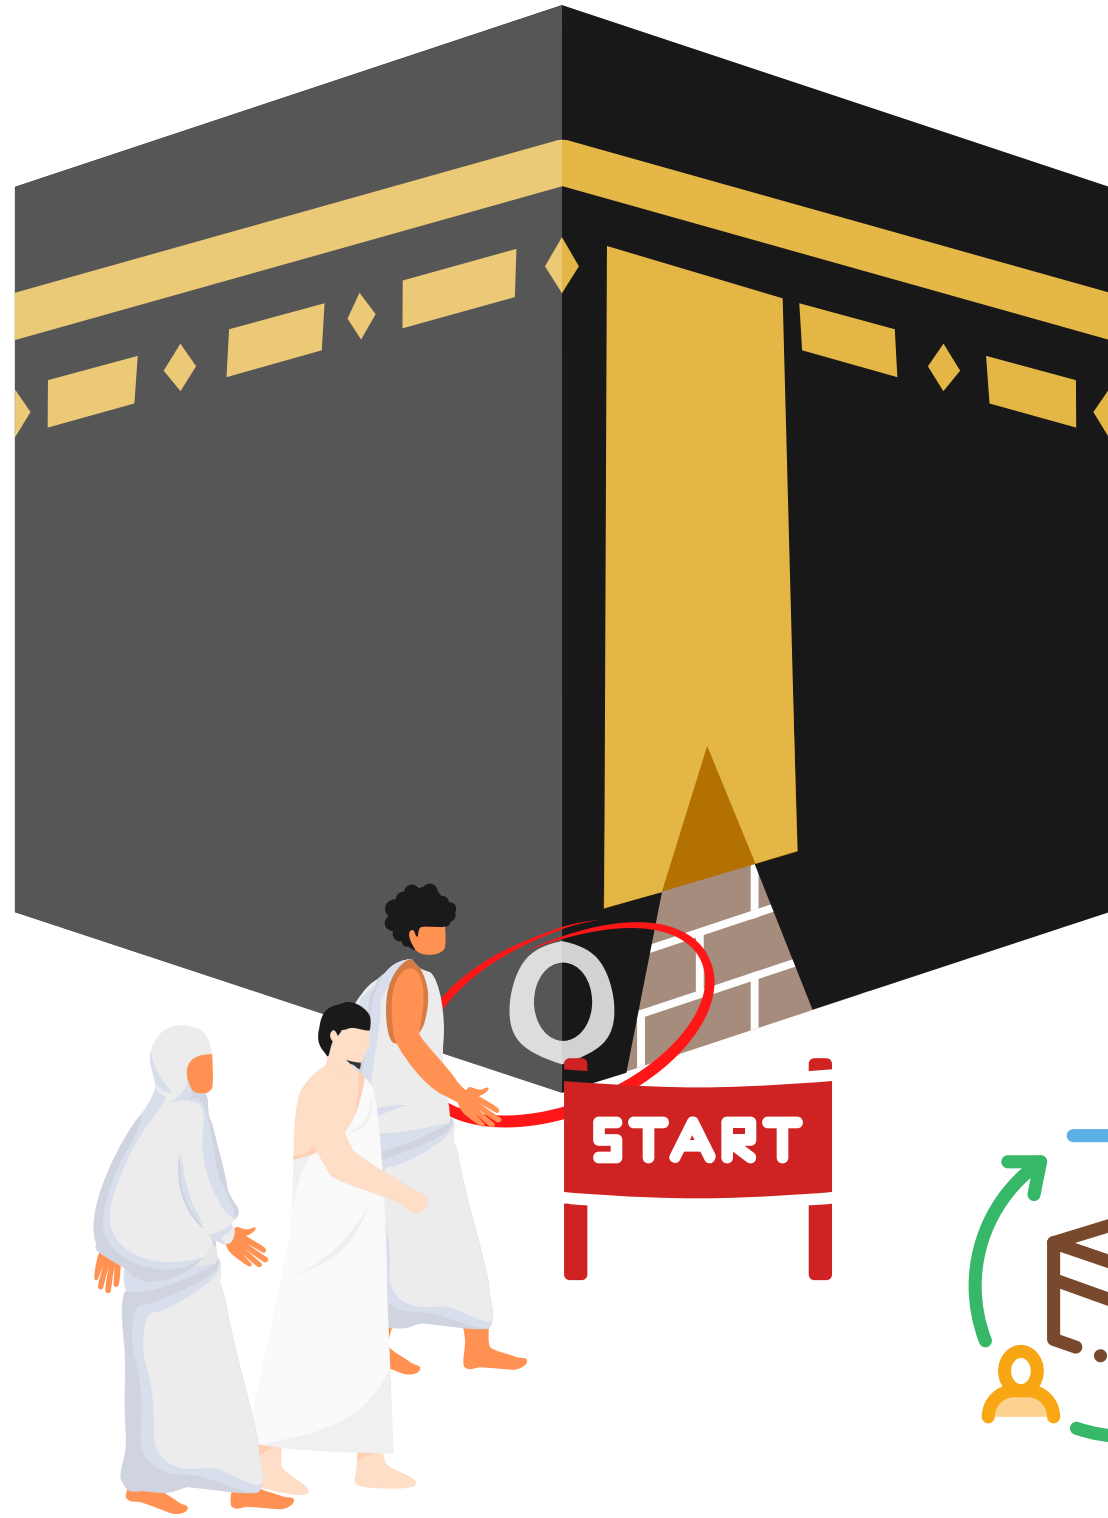

The black cloth embroidered with gold that covers the Kaaba is called KISWAH. The interesting fact is that the kiswah is changed only once a year, in the day of Eid al Adha.

The Black Stone in the corner of the Kaaba is a meteor

FALSE

The Black Stone which is often called the Hajar Aswad in the corner of the Kaaba was sent by Allah SWT to the first Prophet, Prophet Adam (SAW). When the stone was brought from Heaven to earth, it was pure white. The color turns black because of all the sins on earth

Hajar Aswad is a sign to start the Tawaf step of Hajj.

Zamzam water is the best water on earth

TRUE

Rasulullah SAW. Said, "The best water on earth is Zamzam water." (H.R Ahmad)

Zam zam well is located inside Masjid Al-Haram about 20 meters from the Kaaba. The original story of zam-zam water is when Siti Hajar tried to find water for her son, Prophet Ismail AS. He ran seven times back and forth in the middle of the desert between the two hills of Safa and Marwa.

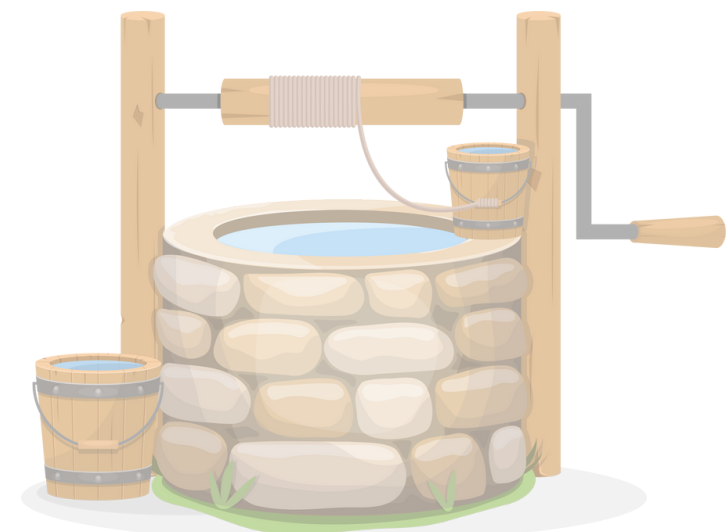

Not finding anything, Prophet Ismail AS suddenly stomped his foot and a spring appeared that still oozes water to this day. In addition, zam-zam water has sooo many benefits!

Safa Hill

Marwa Hill

**The stone with footprints in front of the Kaabah,
is the footprints of the Prophet Muhammad SAW**

 **FALSE**

The stone with the footprints in front of the Kaaba is the footprints of the Prophet Ibrahim called Maqam Ibrahim. The footprints were engraved in the rock when Prophet Ibrahim stood to build the Kaabah.

"And remember when We made the Sacred House a centre and a sanctuary for the people saying, "You may take the standing-place of Abraham as a site of prayer." And We entrusted Abraham and Ishmael to purify My House for those who circle it, who meditate in it, and who bow and prostrate themselves in prayer". Q.S Al Baqarah : 125

**Visiting Mecca with the intention of
worship is known as Hajj or Umrah**

TRUE

Hajj means visiting the
baitullah (ka'bah) to complete
the fifth pillar of Islam.
Baitullah or Kaaba is located in
Mecca, Saudi Arabia

Planes cannot fly over the Kaaba

TRUE

Airplanes cannot fly over the Kaaba due to strong magnetic or gravitational attraction.

This causes the aircraft will have difficulty maintaining its altitude.

In addition there is no airport in the city of Mecca.

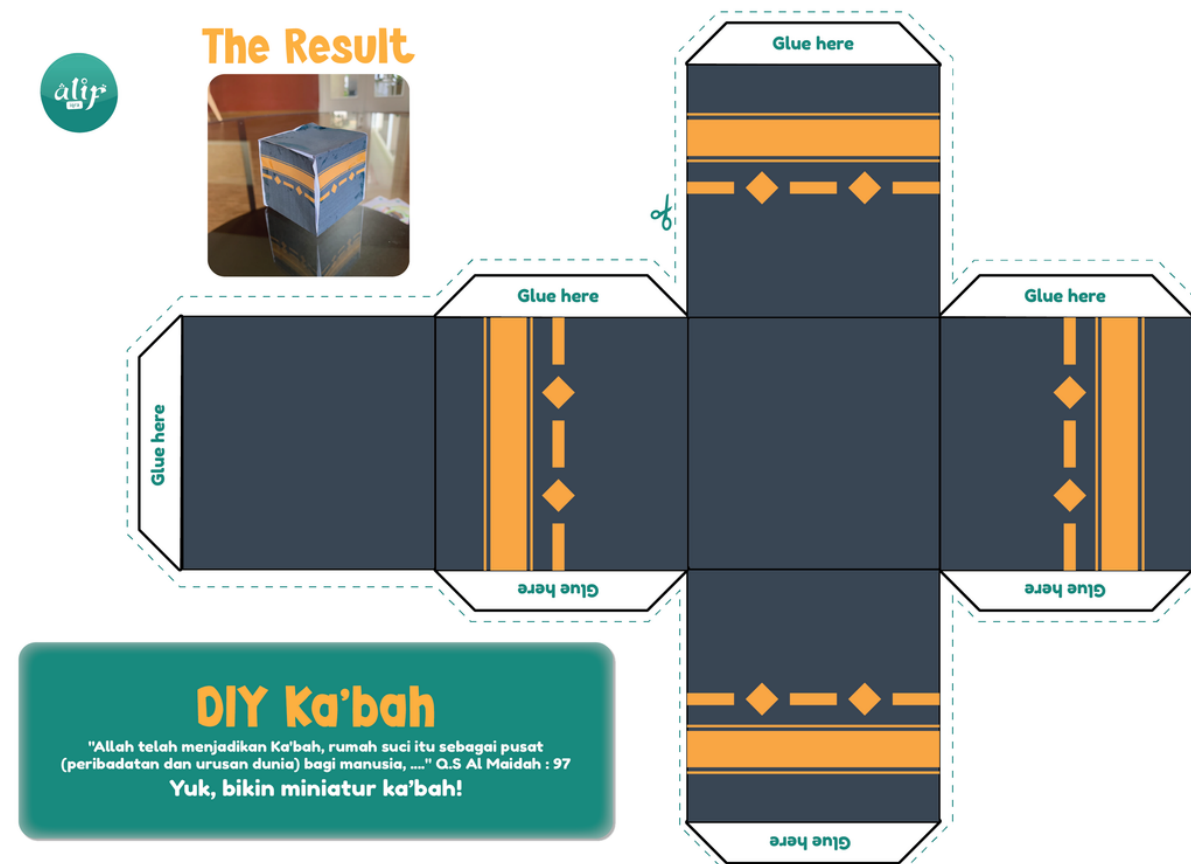

Kaaba is located in the center of the world that is exactly in the center of the earth: not an inch to the left or to the right!

Which fact do you like the most?

Let's make our own miniature Kaaba and experiment with bubble blowers
as an illustration of zam zam water!

Bubble Blower

Bubble Blower menggambarkan air zam-zam yang terletak 20 meter dari ka'bah dan merupakan salah satu mukjizat Nabi Ismail as

Hal yang perlu di siapkan :

- Gelas plastik
- Sedotan
- Air
- Sabun cair

Langkah-langkah :

1. Buat lubang yang cukup di gelas plastik untuk memasukkan sedotannya
2. Tuang air dan sabun secukupnya ke dalam gelas plastik. (NOTED! Pastikan cairan tidak lebih rendah dari lubang)
3. Masukkan sedotan kedalam gelas plastik
4. Miringkan sedotan sehingga masuk ke dalam cairan kemudian tiup
